IU Response to Spread of Zika Virus

February 18, 2016

Indiana University is not restricting travel or participation in study abroad programs in response to reports of the Zika virus around the world, including the U.S. The Office of Overseas Study encourages all students abroad and other IU travelers to review CDC Travel Information and World Health Organization Information and to take appropriate precautions.

Indiana University officials will continue to monitor the situation in case the situation necessitates programmatic changes. See IU-specific resources.

If you have any questions or concerns, please contact our office.
